

# BIOLOGICAL SOLUTIONS IN THE CONTROL OF SPIDER MITES

## SPIDER MITE

TETRANYCHUS URTICAE

## DAMAGE

When the first spider mites are detected use predators and entomopathogens available on the market:

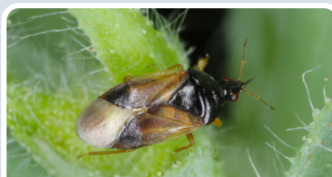

## PREDATORS AND ENTOMOPATHOGENS

### PREDATORY MITE

*Phytoseiulus persimilis*

### PREDATORY BUG

*Orius sp.*

### PREDATORY MIDGE

*Feltiella acarisuga*

### ENTOMOPATHOGENIC FUNGI

*Beauveria bassiana*,  
*Paecilomyces sp.*
